

Medcare Car Extractor

The Medcare Car Extractor is designed to safely lift and remove a patient from nearly any vehicle ranging from a compact automobile to fire or emergency van. It is ideal for hospital emergency departments as this heavy-duty lift enables speedy transfers of patients onto gurneys, stretchers, or wheelchairs. The Car Extractor can also insert patients into vehicles effectively.

Built light and strong with a 30" reach and a 40" lifting range, the Car Extractor can gain deep access into tight vehicle interior spaces and lift patients with limited mobility or little weight bearing ability—up to 475 lbs. capacity.

Item Number:

450000: Car Extractor 475 -
lifts up to 475 lbs.

450045: Low Pro Car Extractor 475 -
lifts up to 475 lbs.

“ Perfect for reducing injuries related to vehicle transfers, the Car Extractor is ideal for transferring patients in and out of most vehicles. ”
